

The WI DO NOT CALL LIST is perfect for me. I don't want it to change, it should remain the way it currently is. For us working people who don't have time to deal with the nuisance and persistent calls, we have time to work, spend time with friends/family, sleep and eat - not to be bothered by someone we don't know, who is just trying to make a sale. Please don't change this because it works for Wisconsin!
